

Coleco ADAM Computer System

Manuals and Revisions

Listed below are all the manuals, addendums and other miscellaneous paperwork that would/could have been included with the purchase of the Coleco ADAM Computer and if there were any revisions made available. If you have any additional revision information or can provide scans that are missing from the ADAM Archive (www.adamarchive.com), please contact me at jnoti68@gmail.com.

I vaguely recall there being a small pamphlet called "ADDITIONAL TIPS (1983)" and this was mentioned by another person that created a similar listing. It may be an earlier version of the "Operating Tips Brochure" or something entirely different.

ADAM Set-Up Manual - Getting Started

#41620 First Edition (1983) - gray cover with photo
#----- Revised Edition (1984) - gray cover with blue text
