METEORIC SHOWER™

INSTRUCTIONS

METEORIC SHOWER™

Stay and look at my short flashing life in the sky. Aren't we both awaiting the dawn? Wanderer. I would thank you for freeing me from my worldly body and return to the eternity. I have attended this self-banishment unwillingly. So, come and shoot. You will be helping me to my eternal planet.

1. PREPARING

- o Hook up your video game system.
- o Plug in "METEORIC SHOWER" while power off.
- o Choose your level by keypad from the option list displayed after the title scene.

Variation	Player	Level	Variation	Player	Level
1	1	1	5	2	1
2	1	2	6	2	2
3	1	3	7	2	3
4	1	4	8	2	4

As difficult level goes higher, the speed of the falling meteors also go faster.

2. OBJECTION

- o In "METEORIC SHOWER", you should make every effort to help all those banished meteors back to their home located on the planet you will see from the screen.
- o The best way and also the most efficient help would be that of terminating their worldly bodies. Therefore, it is the red button for firing that you should take as your tool.

3. CONTROLLING

- o In the immense outer space, meteors are flashing out irregularly.
- o Wandering in the most beautiful meteoric shower, the first thing you should pay attention is to avoid from being hit.
- o Move your position by control stick to left and right and use the red button to fire upward or downward.
- o Since the meteors may flash by very irregularly, you should pay attention to all directions and be alarmed in every minute.

4. GAME PROGRESS

- o There are total 8 game variations to be choosed and every variation contains six scenes.
- o As you finished one scene, the game will go to the next scene automatically.

5. SCORING

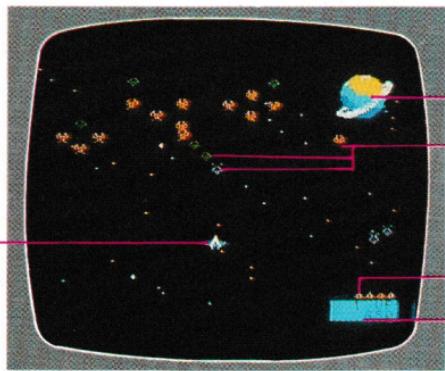

- o The meteors flashing over the space in two different manners; one is considerably regular and unchanged in speed and route whereas the other is unchanged extremely naughty and flashing out everywhere.

You score points as follows:

	Regular one	Irregular one
A RED METEOR	100 points	200 points
A GREEN METEOR	150 points	250 points
AN ORINGE METEOR	200 points	300 points

6. START OVER THE GAME

Press * to replay the game choosed previously; press # to start over from the beginning option scene.
